

PH+

BROADCAST HEADSETS

Experience comfort, reliability, and superior sound quality with the PH+ series broadcast headsets.

Comfortable enough for long-term wear, these single and double-sided headsets are lightweight and provide exceptional sound quality with improved passive noise reduction for broadcast applications of any size. Packed with premium features, these headsets will ensure you don't miss that key play on or off the field.

EXCEPTIONAL COMFORT

Premium leatherette handband and ear cushions for a better fit and frequency response.

IMPROVED PASSIVE NOISE REDUCTION

Battery-free operation with low power consumption. Larger ear cushions and mechanisms for improved fit reduces passive noise.

NOISE-CANCELING MICROPHONE

Clear communication is ensured with the semi-rigid, fully adjustable boom that allows for precise positioning.
